Energy Saving Trust

Curve Breakers **use energy efficiently** and save money

You waste less and save cash when you use energy efficiently. Nonetheless, it can be hard to get an overview of how best to start saving energy and money.

The Business Curve Breaker is Go' Energi's key offering to private sector businesses that want to make a systematic effort to use energy efficiently.

As a Curve Breaker your company will have access to a network and a range of services from Go' Energi.

Some of the benefits include:

- Taking part in a business network with knowledge-sharing and professional arrangements on energy efficiency
- Access to tools and materials

- Receiving news e-mails and articles showing how you can use energy more efficiently
- Using Go' Energi's "View Electricity Consumption" (Se Elforbrug) online tool
- Entering into a binding agreement to reduce your energy consumption, or working systematically to reduce your energy costs
- Use of the Curve Breaker logo, e.g. for marketing purposes

Sign up now

Become a Curve Breaker by filling in your contact details at:

GoEnergi.dk/kurveknaekker-erhverv.

It costs nothing to become a Curve Breaker, and only takes three minutes.

Further information

To find out more about becoming a Business Curve Breaker please contact the Go' Energi Customer Service Centre on +45 70 26 90 09, or write to goenergi@goenergi.dk.

Helpful advice on improving your energy efficiency

As a Go' Energi Curve Breaker you'll have access to practical know-how showing how easy it is to improve the energy efficiency in your business. You'll have lower costs, a better bottom line and a green profile.

As a Curve Breaker you will receive regular news e-mails and articles packed with helpful advice on how you can:

- Get an overview of your energy consumption
- Choose the most attractive areas of initiative
- Make energy investments
- Sell energy savings to the energy companies

- Plan staff campaigns
- Learn more about energy friendly products, labelling schemes, and rules and regulations in the area

The news e-mails will also focus on case-oriented seminars and network arrangements in which Curve Breakers can participate. In addition, you can keep up to date with the new guidelines and tools on the Go' Energi website.

Knowledge and know-how for free

Read more about how you can use energy efficiently, and save money with Go' Energi's free guidelines, tools and campaign materials covering everything from ventilation and heating systems to lighting and cooling in server rooms.
